## The Camp

During the morning session, time will be devoted to the development of individual skills. Campers will be schooled in all aspects of individual and team offensive and defensive basketball during teaching stations. Each camper will receive plenty of “hands-on” experience as they go through various drills aimed at teaching the proper techniques of basketball. Following stations, campers will be shown how to properly practice during the fundamental practice session. This session demonstrates how to practice individually to improve important fundamentals required to become better basketball players. Each morning, Coach Bentley will cover topics such as communication, self-improvement, how to practice and what coaches look for in players. League games, arranged by age groups, are devoted to developing the team concept and the incorporation of the skills learned during teaching stations. Also, campers will compete in skills contests by age group. ***Campers should bring a bag lunch/lunchbox. Drinks will be sold at the camp site during lunch.***
