John Priddy

Dear Friends,
Without question, in today's rapidly changing and competitive world, if we are to educate our children to succeed and prosper, we must do everything we can to broaden their educational opportunities, and to light the fires within them for a necessary lifetime of learning.
Please take time to review the information provided in the 2018 Impact Report. If not for the funds provided, our students and teachers would have missed out on 164 educational field trips, 19 schools would not have received over \$10,000 in academic assistance, 22 Enhanced Learning grants would not have been awarded, and 21 teachers would not have participated with 14 business partners in externships.
By any measurement, our school system is one of the best in the state, and they work extremely hard every day to provide our students with the tools needed to succeed. I want to thank all of you who have donated to the Foundation and participated in our fundraising events. The Foundation's desire is to increase the learning opportunities provided for our students and teachers, however, this cannot be done without the support of our community. Please give, and get involved, as I firmly believe it is all of our responsibility to support the futures of our students.

John Priddy presents Angela Caswell
with an Enhanced Learning Mini-
Grant in May 2018
