

Surry County Schools
Extracurricular/Non-instructional Duties
Exemption Waiver Form

General Statute 115C-47 (18a) a, b, c, specifically provides for the limitation of extracurricular and non-instructional duties for initially licensed teachers and teachers with 27 or more years of experience. It further prohibits the assignment of extracurricular duties to these classifications of teachers unless the teacher request a waiver of this protection in writing.

“Extracurricular duties” would include those activities involving students that occur outside of the regular school day and are not directly related to the school’s instructional program.

“Non-instructional duties” would include those duties that do occur during the regular school day but are not part of the school’s instructional program or the standard course of study.

If you are an employee with 4 years or less teaching experience or 27 or more years of teaching experience you must complete this form in order to be eligible to perform extracurricular duties and/or waive the limitation on non-instructional duties.

Please make a copy for your records and return a copy to your principal.

_____ I request to waive my legal right and be assigned extracurricular and/or non-instructional duties during the 2018-2019 school year.

_____ I request to exercise my legal right and not be assigned extracurricular duties during the 2018-2019 school year.
